16.05.09

Dear Sir/Madam

Anastazija Babic (born Ljubljana, Slovenia, 5 August 1965) has completed two four month terms on the art course at Rørvig Folk High school, gaining proficiency in drawing with a wide variety of media and in painting with acrylics and oils.

The course is very intensive and combines five mornings a week in the painting studio with meditation and classes in other subjects in the afternoon.

Anastazija is one of those students who puts in extra hours in the evenings and at weekends to complete paintings, and her work has consistently been of a high quality. It has been a pleasure to have such an attentive and good natured person in the class.

Yours sincerely
